Executive President visits Sardinia

11th – 13th April 2003

The occasion was greedy: the qualification examinations for security operators promoted and organized by Mr. Giovanni OBINO – Regional Representative of IBSSA for Sardinia – for the seven students fit for the 3rd level and three of them were women, the “Sardinian angels”: Anna, Dafne and Lucia.

For the first time the Executive President of IBSSA, Prof. George POPPER, GCKM went in Sardinia along with his wife, Dr. Anna POPPER – Chairman of Event Management and Protocol Department of IBSSA and it was also the occasion to value for oneself the introduction of new technical technologies: red man and baton, for instance.

The introduction of the complete red man and in the near future also of the Atudente, makes the training real and functional with batons, tonfa, etc.

Cushions for practice, buffer with special protected surface proved to be essential ways for the students of high level. An investment of the IBSSA Italy that ensures the spirit of continuous technical and managerial evolution.

The center of clay-pigeon and dynamic shooting “Raole” directed by Mariano ORGIANA was the point of reference of all the subjects belonging to the IBSSA program: self-defence (GSB), safe driving (Roberto DE RONZI), weapons using (Roberto GOBBI), daring techniques (GSB, Roberto DE RONZI), clearing techniques. As usual the lessons on theory about the legislation in progress could not be absent, this is a subject on which IBSSA insists in every moment, and first aid (Dr. Veronique SANTAROSSA).

Apart from the technical engagement, also the proper political implications among which the contacts with the “International Parliament of States for safety and peace” with the presence of the Ambassador Extraordinary and Plenipotentiary Prof. Rocco GIACALONE. Why the “International Parliament of States for safety and peace”?

IBSSA aims to be recognized as a non-governmental organisation and as educator of professional cadres. It means high international recognition of the qualification diploma.

Conclusions:
